

AESOP4FOOD

Action for Education, Spatial Organisation and Planning for Sustainable Food

spring 2023. ONLINE Erasmus+ Course

A Transdisciplinary and Participatory Approach to food system resilience planning

International participants from different backgrounds and levels of education and professional expertise (from urban planning disciplines, agronomy, environmental sciences, and related disciplines subjects) are invited to participate.

There will be two possible forms of participation:

- only attending the lectures and discussions or
- working on the assignment (5 ECTS)

The assignment participants will work in small teams that focus on Living Labs or projects. They will benefit from additional tutoring/ feedback sessions and present their results in intermediary sessions.

Lecturers: Kathrin Bohn, Joe Nasr, Sébastien Marot, Chiara Tornaghi, Michiel Dehaene, Marian Simon, Damien Conaré, Roxana Triboi, Jeroen de Vries and others.

For more details: AESOP4food wikipege or office@ln-institute.org

AESOP4FOOD Erasmus+ is an online open course on sustainable food planning. It combines lectures and interactive exercises that introduce the conceptual frameworks of:

Agroecological Urbanism
Regional Agroecological Food Systems
Multi-level Governance
Food Justice and Democracy
